Rezoning 1 :

Ashley River Rd (West Ashley)

The applicant is requesting a rezoning to include a portion of the subject property in the School Overlay Zone (S). The property, currently zoned Diverse Residential (DR-12), is located on the north side of Ashley River Road near Parsonage Road. A part of the subject property (not proposed to be in the School Overlay) that fronts on Ashley River Road is zoned General Business (GB). Surrounding zonings include GB, LB, DR-1F, Conservation (along Church Creek), and PUD (single-family). Existing uses surrounding the subject property include multi-family residences (Housing Authority), a fire station (St. Andrews PSD), a retail strip center and undeveloped land.

As is typical in many neighborhoods, schools co-exist with many other uses; including areas with predominately residential uses. The School Overlay Zone is intended to identify areas within residential zoning districts where school uses are allowed. New or expanded school uses are prohibited within residential zoning districts unless they are within the School Overlay Zone. Most schools located in West Ashley, both private and public, are located in the School Overlay.

The Board of Zoning Appeals-Zoning must approve the manner of the use as an exception, upon a finding by the Board that certain conditions will be met to minimize the potential negative impacts to the greatest extent possible. These conditions are as follows:

For nursery, preschool and kindergarten schools:

- (a) Proof of the application for the facilities licensing by the Department of Social Services is provided;*
- (b) Outdoor play is allowed only between the hours of 8 a.m. and 6 p.m.;*
- (c) Play areas within fifty feet (50') of a residential structure are appropriately buffered;*
- (d) Off-street parking requirements of this Chapter are met and parking areas are appropriately buffered;*
- (e) Plans for ingress/egress, loading/unloading and the location of the parking and play areas are approved for safety by the appropriate City department(s);*
- (f) The facility is compatible with the surrounding neighborhood based upon consideration of the number of persons in the facility, potential traffic and noise impacts, location of the play, parking, loading and circulation areas and relation to other noise or traffic generating institutions (particularly if another non-residential facility is facing or abutting the same block face or is within three hundred feet (300') of the proposed site); and*
- (g) Proposed outdoor lighting of the facility does not unduly impact neighboring properties.*

For elementary and secondary schools and colleges:

- (a) *The principal building(s) shall occupy no more than fifty (50) percent of the lot on which the building(s) is (are) located;*
- (b) *Sufficient well-designed parking spaces will be provided internal to the campus and parking areas shall be appropriately buffered;*
- (c) *Dormitory type facilities will be no closer than twenty-five feet (25') to any lot occupied by a single-family dwelling;*
- (d) *Excessive traffic will not be generated on a residential street; and*
- (e) *The facility is compatible with the surrounding neighborhood based upon consideration of the number of persons in the facility, potential traffic and noise impacts, location of the play, parking, loading and circulation areas and relation to other noise or traffic generating institutions (particularly if another non-residential facility is facing or abutting the same block face or is within three hundred feet (300') of the proposed site).*

CENTURY V CITY PLAN RECOMMENDATIONS

The **Century V Plan** recommends keeping the character of established areas in the City when considering rezoning property. The School Overlay Zone indicates the City's recognition of the importance of neighborhood schools and is it intended to make sure that existing school uses continue to be compatible with surrounding neighborhoods. The subject property area is in an area designated as **Neighborhood Center** in the Century V Plan. Rezoning the subject property to be included in the School Overlay Zone is recommended to ensure appropriate school uses occur within the existing neighborhood.

The **Century V Plan** recommends maintaining the character of established areas in the City when considering the zoning of property. Given the existing pattern of development in the surrounding area the proposed zonings are appropriate for these sites.

Zoning 6:

Cooper Judge Ln (James Island)

BACKGROUND

The subject property consisting of two lots (3.74 ac.), is pending annexation into the City and the property owner is requesting zoning of Single-Family Residential (SR-1). The property is zoned Special Management (S-3) in Charleston County. The property is surrounded by SR-1 zoning in the City and S-3 zoning in Charleston County. The property is surrounded by single-family homes on large lots, and undeveloped lots of varying size. The lots are wooded and accessed by an unimproved private right-of-way off of Secessionville Road.

CENTURY V CITY PLAN RECOMMENDATIONS

The **Century V Plan** recommends maintaining the character of established areas in the City when considering the zoning of property. The subject property is designated in the Century V Plan as **Rural** which is characterized by low residential density and agricultural uses. The property is located just outside of the City's Urban Growth Boundary in an area of James Island that has a rural context, but has seen some residential development of late. Given the existing zoning and existing pattern of development in the surrounding area the Rural Residential (RR-1) zoning is more appropriate for this site.
