comment	David	Hoffman	null	9 Pitt Street, Charleston, SC 29401	null	I would like to address the request for the roof change at 87 1/2 Warren. I am opposed to this change. The current slate roof was put on after Hugo to replace a damaged slate roof. I spoke with Dr. Konrad Mark who has owned 86 Warren Street for some 50 years. He said not only has it been a slate roof during his tenure but also had clay cap tiles which disappeared during the 1990 replacement. I see no reason for a change from slate to standing seam, and ask the Board to deny this request.	Item #3	87 1/2 Warren Street	null	null	Apr 27 2022 10:31AM
