**THE PUBLIC COMMENTS BELOW ARE ASSUME TO ADDRESS THE PROJECT @ 74 PRESIDENT STREET (MUSC) PER LAWRENCE COURTNEY**

Love the whole concept you've outlined. However one major question, if your plan comes to fruition where do all of the folks that will be flocking to this incredible place park their cars?

Please be Sure to include a lot of benches to accommodate the handicap & less mobile people of the community. Many people can only walk for a little while and then must sit down to rest. Benches along walk ways & in locations to take in advantage of the views would be fantastic. Without benches, this Great Idea will be inaccessible to many in the community. This can be achieved with minimal additional cost to the project , as well as make it more ADA Compliant. Thank-You
