Dumpster Ordinance

*Scan QR code
to open ordinance.*

It is the applicants responsibility
to have a complete
understanding of the ordinance.
Traffic & Transportation would like to
bring full attention to the section below.

(c)(6) The dumpster shall be marked with high-intensity retro reflective sheeting, or other retro-reflective or prismatic material or substance approved by the Department of Traffic and Transportation, a minimum of three (3) feet in length, and two (2) inches in width along each side of the corner and any other additional warnings, reflective stickers and instructions as the Department of Traffic and Transportation may require. In addition, at all times hereunder, barricades with flashing lights shall be placed at each end of the dumpster.
