---

**Q-1** **I know the bid doesn't call for it, but will you be looking for any security cameras as part of the scope? We have cameras with pedestrian detection and smart ai features. We could also look at the thermal imaging capabilities to increase safety in low-light environments.**

**A-1** No, just push button activated RRFBs as shown in the plans.

**Q-2** **Do you know what the allocated project duration will be?**

**A-2** The City would like the project to be complete within one month of breaking ground.

If you have any questions, please feel free to call 843-724-7314. Thank you in advance for your cooperation.
